Hello and welcome to the Preschool Program at the City of Lafayette. I am eager to begin the school year and become a part of your child's early learning adventure. My name is Sue Terwilliger, and this is my ninth year teaching in the pre-school program. I am currently the Sub-Director for Early Childhood Education and Lead Teacher in the Kinder-Prep Program. I have a Director's Certificate in Early Childhood Education, an Associate Degree in Early Childhood Education, and a State of Colorado Level III Early Childhood Education Credential.

I love the magic of children, their unending curiosity, their spontaneity, their smiles, their tears, their imagination, their reasoning, and their simple view of the world. As a preschool teacher, I am learning and growing each day just by watching and discovering each and every child in my class. They are teaching me to be a positive teacher just as I am teaching them to be positive students. My teaching philosophy is simple: I want each child in my class to leave with a smile in their heart and a smile on their face. If I can accomplish just this one feat, than I have accomplished a major feat!

My husband and I have been blessed with three wonderful children, and we live in Frederick, Colorado. I love spending time with my family, scrap booking, cooking, (and eating!) and jogging with my dog, Tank!

I look forward to meeting you and am always available to answer any questions or concerns you may have. *Welcome to Preschool… where we learn to play and play to learn!*

We don't stop playing because we grow old…we grow old because we stop playing…
George Bernard Shaw
