About the National Recreation and Park Association

The National Recreation and Park Association (NRPA) is a national not-for-profit organization dedicated to advancing park, recreation and conservation efforts that enhance quality of life for all people.

“Park and Recreation Month is the time to show all of America, citizens and public decision makers alike, of the extremely exciting and important role that parks and recreation play for communities,” said Barbara Tulipane, CEO of NRPA. “I can’t think of a better excuse for citizens to get out every day and experience for themselves the positive health effects, economic benefits, social interaction, and connection to nature and open space that comes with vibrant and supported parks and recreation.” Park and Recreation Month is a program of the National Recreation and Park Association.
