

Benefits for Regular Part Time Employees

Regular Part Time Employee Definition

A regular part time employee works in an hourly position that is classified as regular part time: the position maintains a regular, dependable schedule consisting of less than 40 hours per week on a year-round basis, and may include higher level responsibilities or a different schedule than other part-time or intermittent positions.

Retirement

The City and employee contribute to a 457 Deferred Compensation Plan in the employee's name in lieu of participation in Social Security. 4% of employee pay before taxes is matched with a City contribution of 4%.

The employee has additional voluntary retirement account options through ICMA-RC, including Roth accounts.

Voluntary Health Insurance

Regular part time employees have the ability to pay for health insurance through the City's HMO Plan 420P administered by Kaiser Permanente.
